

nyloprint[®] Combination CW 35 x 50

**Compact all-in-one letterpress plate making system
with exposure, washout and drying functions**

Mid-size unit of the equipment combinations, suitable for processing water washable printing plates
up to a maximum size of 350 mm x 500 mm (13.8" x 19.7")

High efficient and cost effective

- Exposure, washout and drying unit for the production of high quality water washable letterpress plates
- Space saving as all units can neatly be stacked on a trolley base
- Available and useable as separate components with own electrical connection – allows to easily replace or upgrade one part of the system if necessary
- Long service life due to advanced materials – all parts in contact with water are made of high quality stainless steel
- Process safety due to programmed plate processing parameters and temperature controlled washout section
- For washout only tap water is needed
- Less mechanical stress due to a proven plush washout system that prevents the washing away of fine elements
- Oscillating plate holder ensures even plate washout and is self adjusting to allow the use of different plate thicknesses

Simple operating and convenient handling

- Digital programmable operating panels for customising the processing times of each function
- Audio alarm to signal end of each process
- Trolley base with casters for easy movement and access to the system
